

ONE DAY TO SEE FURTHER, THINK SHARPER AND MOVE FASTER

On 9 June, NTT DATA UK and Ireland (UK&I) brings together over 500 senior technology and business leaders for a day of genuine discovery, honest conversation, and hands-on innovation.

Mirai'26 isn't a conference.
It's the UK&I business and technology community –
in one room, with one shared purpose: to make sense
of what's next, and what to do about it.

Tuesday, 9 June 2026 | Evolution London, Battersea

MIRAI26
The future together

VOICES THAT CUT THROUGH THE NOISE

We've brought together leaders who've done it –
at scale, under pressure, with results.

No abstract theory.

No idle speculation.

Just sharp, honest perspectives from
people who are shaping what enterprise
transformation actually looks like.

KEYNOTE

RETHINKING AI HOW AGENTS IMPACT BUSINESS AND HUMANITY

DANIEL HULME: CHIEF AI OFFICER, WPP | CEO, SATALIA

Daniel is a globally recognised expert in AI and investor in emerging technologies. He's the CEO of Satalia, which was acquired by the world's largest media company, WPP, in 2021 for \$100M, where Daniel is now the Chief AI Officer.

With over two decades of AI experience, Daniel has become a world-renowned keynote speaker and has been recognised as one of the top-ten Chief AI Officers globally. Alongside his technology investments, Daniel is also Founder and CEO of the world's first commercial research organisation to understand machine consciousness, Conscium.

FIRESIDE CHAT

FROM PILOT TO PRODUCTION: THE HARD REALITY OF DEPLOYING AGENTIC AI AT ENTERPRISE SCALE

ANNE-SOPHIE LOTGERING: EUROPE CEO, NTT DATA, INC.

Anne-Sophie has served as CEO Europe of NTT DATA, Inc. since 1 September 2025 and is a member of the company's global Executive Leadership Team. With more than 20 years of international experience in IT services and telecommunications, Anne-Sophie has led digital transformation programmes and driven strategic growth initiatives across complex business environments. Before joining NTT DATA, she was CEO of Proximus NXT IT, where she led the integration of B2B operations across the Netherlands, Luxembourg and Belgium, successfully unifying multiple subsidiaries into a single, agile organisation while capitalising on key ICT market trends.

LIGHTNING KEYNOTE

REDEFINING CUSTOMER EXPERIENCE THROUGH INTELLIGENT AI

CLAY BAVOR: CO-FOUNDER, SIERRA

Clay Bavor is a co-founder of Sierra, which helps businesses build better, more human customer experiences with AI. A visionary product leader and technologist, Clay spent 18 years at Google, where he spearheaded some of the company's most innovative efforts. As head of Google Labs, he led teams working on forward-looking projects, including augmented and virtual reality, Project Starline and Google Lens. Earlier, Clay oversaw the product and design teams for Gmail, Google Docs, Google Drive and Google Apps for Enterprise (now Workspace), shaping tools used by billions worldwide. He also contributed to foundational Google products, including Search and advertising technologies.

CLIENT PANEL

ANTICIPATING THE CHANGING DEMANDS OF CUSTOMER EXPECTATIONS

JULIET SLOT: CHIEF COMMERCIAL OFFICER, ARSENAL FC

Juliet has served as Chief Commercial Officer and a member of the Executive Team since 2021. In her role, Juliet leads the global commercial strategy to drive revenue that can be reinvested in teams and facilities, supporting the club's ambition to win major trophies in a financially sustainable way. She holds executive responsibility for partnerships and commercial ventures, brand, marketing, data and insights, retail and venue, working together to connect ambition with values and bring global communities of Arsenal supporters closer to the club.

MARK HALL: GROUP CTO, LEGAL & GENERAL

Mark is the Group Chief Technology Officer at L&G, a leading UK-based financial services group and major global investor, established in 1836. Mark leads digital transformation and oversees technology, data, AI and security across the group. With a career spanning multiple sectors, including utilities, central government, law enforcement and financial services, both in the UK and internationally, Mark has a specialism of delivering high-profile mission-critical digital services to customers and markets.

WILL MONAGHAN: GROUP CDIO, UNIVERSITY HOSPITALS OF LEICESTER & NORTHAMPTONSHIRE

Will currently serves as Group Chief Digital Information Officer for University Hospitals of Leicester and University Hospitals of Northamptonshire, leading the transformation of digital services for 30,000 colleagues serving nearly two million patients. He speaks regularly on digital transformation and contributes to national strategy through the Secretary of State's AI Advisory Board, the national FDP steering committee and as an advisor to Imperial's Digital Health Leadership programme.

FIRESIDE CHAT

SCALING AI THE VOLVO CARS WAY: SAFE, SMART AND BUILT FOR IMPACT

IAN THOMAS: GLOBAL HEAD OF STRATEGIC INITIATIVES FOR DATA,
AI & INTELLIGENT AUTOMATION | CHAIR, GENERATIVE AI COMMITTEE – VOLVO CARS

Ian leads projects and programmes cutting across the Data & AI portfolio, with a strong belief that good governance is an enabler of rapid, responsible innovation rather than a constraint. His work has included shaping enterprise operating models for generative AI, establishing roadmaps of high value use cases and aligning technology and information foundations to support scale. Working within a complex global organisation, he focuses on enabling pace and consistency across jurisdictions while balancing local autonomy, risk and trust.

FIRESIDE CHAT

LEADERSHIP IN DIFFICULT TIMES

MAJOR GENERAL NICK COWLEY OBE: COMMANDANT, ROYAL MILITARY ACADEMY SANDHURST

Nick is a senior British Army officer who has been serving as the Commandant of the Royal Military Academy Sandhurst since October 2024. Major General Nick was commissioned into the Queen's Royal Hussars on 22 September 1997 and has served in Kosovo and on multiple tours of Iraq and Afghanistan. He became commanding officer of the Queen's Royal Hussars in Germany in 2017, military assistant to the Chief of the General Staff in 2019 and commander of 16 Air Assault Brigade Combat Team in 2021

A DAY DESIGNED FOR DISCOVERY

Every element of Mirai'26 has been designed to maximise your time – whether you're deep in a keynote, exploring a live demonstration or in honest conversation with a peer who's navigating the same decisions you are.

MAINSTAGE PLENARY

TIME	SESSION NAME	SPEAKERS
9:00–9:45	Arrival and networking	
9:45–10:00	Welcome and introductions	Niccolo Spataro UK&I Executive Managing Director, NTT DATA, Inc.
10:00–10:45	Rethinking AI and how agents impact business and humanity	Daniel Hulme Chief AI Officer, WPP CEO Satalia
10:45–11:15	From pilot to production: the hard reality of deploying agentic AI at enterprise scale	Anne-Sophie Lotgering Europe CEO, NTT DATA, Inc. George Karypis Chief Scientist, NTT DATA AIVista
11:15–12:00	Anticipating the changing demands of customer expectations and behaviour in real time	Nick Smith UK&I Managing Director, Products & Services, NTT DATA, Inc. Juliet Slot Chief Commercial Officer, Arsenal FC Will Monaghan Group Chief Data Information Officer, University Hospitals of Leicester & University Hospitals of Northamptonshire Mark Hall Chief Technology Officer, Group, Legal & General Matthew Boguradzki Regional Director, Europe, McLaren Automotive
12:00–12:20	Demonstration: multi-agent decision making through intelligent orchestration	Charlie Doubek Global Vice President: Agentic AI services, Cloud and Security, NTT DATA, Inc.
12:25–12:45	Redefining customer experience through intelligent AI	Clay Bavor Co-founder, Sierra
12:45–13:30	Networking lunch	Lunch
13:30–14:00	AI and the evolving cyber threat landscape	Sheetal Mehta Global Head of Cyber Security, NTT DATA, Inc. Karen Pritchard Liberty Global Group, CISO
14:00–14:50	Sovereignty in action	Albi van Zyl Europe & IBIOL Executive Managing Director, Tech Solutions, NTT DATA, Inc Richard Wright EMEA AI Factory Leader, Nvidia Mandy Lamb Regional Head of Value Added Services, VISA + speakers from Mistral AI & Dell
14:50–15:50	The partners you trust. The outcomes you need. How to get both.	Mike Jones UK&I Managing Director, Partners and Alliances, NTT DATA, Inc. Sandip Gupta Global Head of Strategic Alliances, NTT DATA, Inc. Felicity Starr Area Vice President for Telco, Tech and Media, Salesforce + Speakers from Palo Alto Networks, AWS and Atlassian
15:50–16:10	Scaling AI the Volvo Cars way: safe, smart and built for impact	Bill Wilson Global AI Lead for Government, NTT DATA, Inc. Ian Thomas Global Head of Strategic Initiatives for Data, AI and Intelligent Automation, Volvo Cars
16:10–16:55	Leadership In difficult times	Major-General Nicholas Cowley, OBE Commandant of the Royal Military Academy Sandhurst
16:55–17:05	Event close	Niccolo Spataro UK&I Executive Managing Director, NTT DATA, Inc.

40+ SHOWCASES. ONE ROOM. THE FUTURE ON DISPLAY.

Mirai'26 is designed for hands-on exploration. Across the venue, you will find live demonstrations, working prototypes and direct access to the teams behind them. This is not about polished presentations.

It is real technology, in action, ready for you to try.

NTT DATA PRACTICE SHOWCASES

The future of work powered by agentic AI:

Explore how AI agents can autonomously resolve, orchestrate and personalise workplace interactions, transforming IT, HR and employee support in real time.

Transforming SAP® Solutions into Value:

Experience live demos of AI-enabled SAP in action — from Neurostack's intelligent AMS and automated root-cause resolution, to Axet's instant documentation generation. Plus, you'll see how to accelerate ECC to RISE/S4 migration with confidence. Joule's AI copilot for HR showcases how NTT DATA reimagines SAP. You'll see the evidence of production impact: productivity gains, automation levels and root-cause resolution rather than claims.

AI-powered infrastructure services:

Understand your biggest infrastructure value levers in minutes, from risk and refresh to sustainability and licensing and see how to act on them.

Responsible innovation for society:

See how NTT Group's R&D is shaping sustainable, human-centred technology and driving Society 5.0, from photonic networks to brain-controlled interfaces.

Agentic BPaaS – beyond automation:

See how multi-agent systems execute, optimise, and scale operations across the enterprise. Understand what it takes to move from AI pilots to full-scale execution with clear, measurable outcomes.

IT and business reimaged with agentic AI:

Learn how to scale agentic AI across business functions and critical infrastructure in a way that is safe, governed and built for long-term adoption.

SDLC acceleration through agentic AI:

Explore live demos showing how agentic AI, powered by qAIInt and other accelerators, turns fragmented delivery into faster, smarter end-to-end software development with measurable confidence and efficiency.

Reimagine cybersecurity in the age of AI:

Experience how NTT DATA is delivering security services that are proactive, intelligent and built for the AI era through live demos covering AI-era threat detection, security governance and resilience capabilities.

Next-gen data and analytics experience:

See how the right data partner, with proven delivery experience and real client deployments, turns data strategy into tangible business outcomes. This is not another platform discussion. It is real value in action.

Contextual AI for smarter enterprises:

Discover how building organisational context first unlocks meaningful, high-value AI outcomes through hands-on demos of Agentic Quotien, KANO (the trusted context engine for autonomous enterprises) and a live AI-powered robodog using Nvidia machine vision.

NTT DATA INDUSTRY SHOWCASES

Focused demonstrations tailored to key industries including banking, insurance, telco and media, products and services and the public sector. Real-world use cases. Real results. Real conversations.

We are banking on intelligence:

Explore live agentic AI demos for lending using the Covecta platform, alongside an interactive behavioural analytics experience showing real-time investor profiling for wealth.

The future of insurance, reimagined:

Experience more than ten live demos of the Sugoi Agentic AI Workplace, showing how AI agents operate across the value chain and bring intelligence into how insurance work is delivered, reviewed and governed.

Innovation delivered in products and services industries:

Explore an interactive touchscreen experience navigating 15 UK real-world client case studies across customer experience, operational efficiency, data and AI, and legacy modernisation – featuring enterprises in Automotive, Manufacturing, Defence, Airlines, Sports, Retail, and Utilities.

Driving positive impact across public sector:

See live demonstrations from the Civil Service AI and Data Challenge, DfE Breakfast Clubs, and a Python and AI document processing solution supporting Victim Support.

Telcos of the Future:

Discover live demos of Radio Access Network (RAN) Planning using Marble Visions satellite data on ArcGIS Esri, alongside monetisation solutions and the Arrow SaaS platform for touchless invoice processing.

TECHNOLOGY PARTNERS SHOWCASE

20+ global technology leaders. All in one space. All here to show you what's actually possible.

WHAT YOU'LL EXPERIENCE

Immersive environment

Evolution London transformed into an immersive Tokyo Night Market – an environment designed to encourage exploration, conversation and the kind of thinking that doesn't happen behind a desk.

Keynotes and expert sessions

Eight plenary sessions spanning AI strategy, cybersecurity, sovereign technology, ecosystem collaboration and transformational leadership. Every session is designed for honest, substantive dialogue – not polished messaging.

40+ live demonstrations

Hands-on access to working technology across NTT DATA's practice areas, sector-specific showcases and partner innovation zones. Interact directly with the team's building and deploying these solutions.

Peer exchange networking zone

Curated introductions matched by industry, role and shared challenges.
Facilitated discussion circles on AI governance, cloud strategy, digital transformation and talent.
The conversations that actually inform strategy – and the relationships that extend well beyond 9 June.

Networking lunch and evening drinks

Structured time to connect, continue conversations and explore showcases at your own pace.

Reserve your place

Mirai'26 is a limited-capacity event. Places are filling quickly.
